Review about Beau Care Clinic.

Mijn name is Remie Markus and I live in Wijnandsrade South Netherlands, I am born on the 3 January 1957.

I always wanted to make my breasts larger.

My problem is that I always have a great fear for hospitals.

However, when I had made the decision because my friends last year also had undergone breast augmentation.

I came on Beau Care clinic via the website. There were many positive experiences mainly from England from Beau Care clinic.

After that I made an appointment for a consultation with Dr. Wim Danau

When I arrived in Machelen at Beau Care clinic, I was very impressed.

I had the impression that I was in a spa resort. It was very nice and the whole place was luxury and gave tranquility. At the back you can see a beautiful park. You think you are in a 5 star hotel and not in a hospital or clinic.

Dr. Wim Danau inspected my breasts. One breast was larger and the other smaller. He gave me the advice left 390cc and right 430cc. With round implants he thought this fits the best to me.

On the 3 of February 2016 was the day of the breast implants. At 13.30 hour.

At 18.00 I could go home accompanied with my husband.

I waked up after surgery in the recovery room overlooking the beautiful park with the birdies singing.

After 5 days, 2 bandages were changed by my house doctor. He was astonished that it was so beautiful done with such a good craftsmanship.

I had been given painkillers. I did not need them, however because I had almost no pain. I had taken only two paracetamol

I slept under a flat pillow under my back and slept fine.
The sports bra they gave me was perfect.

On February 17. I was at Beau Care to remove the stitches. This can also be done by your local doctor or nurse.

I am very happy with my new breasts.
They look great, well rounded and full. And left and right are the same size.

My special thanks goes out to Dr. Wim Danau.
He is a very professional and very good surgeon who gives a good advice.

The following points emerged.

- 4 Highly skilled staff.
- 5 Good and expert advice of surgeon Dr. Wim Danau
- 6 Beautiful website.
- 7 Good reviews for this clinic.
- 8 Very modern operating room.
- 9 No wound drains, but the wound was cauterized therefore low risk of infection.
- 10 Each implant has a serial number on both the left and right. (good warranty)
- 11 Surgical bed was heated.
- 12 Very good documentation, what you can do or not can do after the first six weeks.

I can recommend this clinic highly. I'm so happy with my perfect and beautiful good looking breasts. They are especially beautiful to my figure.

And this all for € 2950,--
What I got is great.
